Marks Obtained _____

Q1: Read the passage carefully then answer the questions below.

Bill Fuller, the postman, whistled cheerfully as he pushed his bicycle up the hill towards of old Mrs. Dunley's house. His work for the day was almost finished: his bag, usually quite heavy when he set out on his round, was empty now except for the letter that he had to deliver to Mrs. Dunley. She lived over a mile for the village so that, when Bill had a letter for her, he always finished his day's work much later. He did not mind this, however, because she never failed to ask him for a cup of tea.

When Bill entered the gate of Mrs. Dunley's house, he was surprised not to find her working in her garden. She usually spent most afternoons there when the weather was fine. Bill went straight round to the back of the house, thinking that she might be in the kitchen. The door was locked and the curtains were drawn. Puzzled, he returned to the front of the house and knocked hard on the door. There was no answer. Bill thought that this was very strange he knew that Mrs. Dunley rarely left the house. Just then he noticed that her bottle of milk, which was delivered early in the morning, was still on the doorstep. This worried him. If Mrs. Dunley had not taken in her milk, perhaps she was ill. Bill walked round the house until he found an open window. It was small, but he just managed to squeeze through. He went into the hall. There he almost fell over Mrs. Dunley who was lying at the foot of the stairs, unconsciously. Realizing that there was

little he could do for her, Bill rushed out of the house, stopped a passing car and in order to take Mrs. Dunley to the City Hospital told the driver to telephone for an ambulance as soon as he got to the village.

यदि हमारे वृक्ष स्वस्थ हैं, तो निश्चित मानिए हम भी स्वस्थ हैं, क्योंकि हमें प्राणवायु उन्हीं से मिलती है। हम कार्बन डाईऑक्साइड छोड़ते हैं या उन्हें देते हैं और वे बदले में हमें ऑक्सीजन देते हैं। जो हमारे जीवन की हर गतिविधि के लिए आवश्यक है। हमारे स्वास्थ्य का प्रत्येक पहलू ऑक्सीजन पर निर्भर है। भले ही यह बात हमें कल्पना लोक की लगती हो, लेकिन यह वैज्ञानिक प्रामाणिकता भी रखती है, इससे रत्ती भर भी संदेह करने की गुंजाइश नहीं है। हम यदि अपने आस-पास खड़े वृक्षों की रक्षा का जिम्मा अपने कंधों पर उठा लें तो निश्चित मानिए हमने अपने स्वास्थ्य को लंबे समय तक स्वस्थ रखने की गारंटी प्राप्त कर ली है। वृक्षों की रक्षा में ही हमारे जीवन की सुरक्षा का राज छिपा है। कहा जाता है – “एक स्वस्थ मन ही स्वस्थ समाज और स्वस्थ देश की रचना करने में समर्थ है। कुत्सित विचारों वाले लोग अपना जीवन तो चला सकते हैं, लेकिन समाज और देश को नहीं चला सकते। करोड़ों परिवारों के सुनहरे भविष्य के बारे में वही चिंतन, मनन और सृजन कर सकता है, जो व्यर्थ के लालच, लोभ व षड्यंत्रों से मुक्त हो और जिस पर किसी भी प्रकार का कोई अनुचित दबाव न हो।”
